### Dear members and friends of GV-SOLAS,

We are delighted, on behalf of the Society for Laboratory Animal Science (GV-SOLAS) and the organizing committee, to welcome you to the 62nd Scientific Conference of GV-SOLAS, taking place from September 16 to 18, 2026, in the beautiful former federal capital of Bonn.

Bonn is internationally renowned both as the former federal capital and seat of government (1949–1999) and as the birthplace of Ludwig van Beethoven (born 1770). In addition, the Rheinische Friedrich-Wilhelms-Universität Bonn, founded in 1818, ranks among Germany's most prestigious universities. Since 1949, the University Hospital's campus has been located on the Venusberg. Here also lies the main site of the DZNE (German Center for Neurodegenerative Diseases), a member of the Helmholtz Association. DZNE Bonn provides around 600 staff members with space and inspiration for their research, focusing primarily on basic science, clinical trials, and population studies in the field of neurodegenerative diseases.

Digitalization has fundamentally transformed the research landscape. Modern technologies enable faster, more precise, and better-connected research than ever before. Digital tools—such as artificial intelligence, big data, cloud computing, and specialized software solutions—greatly facilitate data collection, processing, and analysis.

Through the use of digital technologies, animal movements, feed intake, health status, and environmental conditions can be monitored in real time. Sensors, cameras, and wearables continuously generate data that give researchers valuable insights into animal behavior and welfare. Digital systems also help to deploy resources more efficiently—for example, by automating feeding or optimizing husbandry conditions. In research, digitalization plays a key role: it supports efforts to improve animal welfare while simultaneously addressing economic considerations.

Despite all these opportunities, digitalization also brings challenges—particularly regarding data protection, the management of large data sets, and ethical questions. Therefore, a “culture of care” and the 3Rs (Replacement, Reduction, Refinement) must continue to play an essential role in our everyday professional practice. This gives rise to the question: What does targeted promotion of digital competencies, and the expansion of appropriate infrastructures look like in order to harness the full potential of digitalization in research—and specifically in animal husbandry?

We invite you to join us in exploring this and many other exciting questions through our presentations, workshops, and roundtables.

The scientific program will be held at the Maritim Conference Hotel. Situated in the Rheinaue park, its open layout fosters both personal exchange among colleagues and interaction with industry partners. The workshops will chiefly take place in the DZNE building. Another highlight will be the evening event at Godesburg, with its panoramic views over the Rhine Valley and the Siebengebirge hills.

We look forward to seeing you soon at the 2026 conference in Bonn.

*Dr. Robert Stark*  
Conference president

Bonn is a city that impresses at first glance with its location on the Rhine and its historical charm. It is one of the oldest cities in Germany and combines history, culture and a modern way of life in a unique way. Visitors immediately sense the relaxed atmosphere that emanates from the well-kept streets of the old town, the spacious green areas and the open, welcoming character of the city.

A tour of the city center takes you past the baroque Electoral Palace, Bonn Minster and the colorful rows of houses in the old town. Here you can linger in small cafés, stroll through boutiques or visit the weekly market on Münsterplatz. The Rhine promenade offers ideal conditions for walking, cycling or simply enjoying the view of the river and the Siebengebirge mountains opposite.

Bonn is closely associated with Ludwig van Beethoven, who was born here. His birthplace is now a museum that gives visitors an insight into the life and work of the famous composer. Bonn is also a city of music and culture. Concerts, theatre performances and art exhibitions take place all year round. The houses along the so-called Museum Mile, where changing exhibitions of international standing are shown, are particularly popular.

Although Bonn is not a large city in the classic sense, it impresses with its openness and internationality. Numerous UN institutions and international organisations have their headquarters here, which characterises the cityscape and the cultural offerings. At the same time, Bonn has remained down-to-earth – with cozy breweries, Rhenish cuisine and plenty of joie de vivre.

Those seeking relaxation will find it in the Rheinaue, an extensive park area with lakes, flowerbeds and sunbathing lawns. From here, excursions into the nearby Siebengebirge mountains are also possible – for example to the Drachenfels, one of the most famous excursion destinations in the region with a marvelous view over the Rhine valley.

Bonn is not a noisy metropolis, but a city to arrive, discover and feel at home in. Whether for a weekend or a longer stay – once you've been here, you'll often come back.

#### 4.1. Conference Venue

The congress hotel on the outskirts of Bonn opens its doors for events of all kinds, seminars and conferences. Thanks to its central location, the transport links to the motorway, Bonn Central Station and Cologne/Bonn Airport are ideal. Get started right away and enjoy the nearby Rheinaue recreation area after a successful conference.

**The prices will be published soon  
on the conference website.**

### 6.1. Industrial Exhibition

Intercom Dresden GmbH is the organizer of the industrial exhibition.

For many years, the industry – both supporting and non-supporting members of the society – has accompanied the GV-SOLAS conference in a proven manner, thus making a decisive contribution to the success of this meeting. In 2026 you are cordially invited again to participate. Several options for exhibiting or sponsoring are listed in this brochure.

**Sponsorship services will be booked online via a booking portal.**

#### Liabilities / Terms and conditions

Only one company can book and pay for a booth at a time. Only the booking company will be listed as an “exhibitor” in the exhibitor list, in the app, and on the website. If an exhibiting company that has booked a booth presents a partner company at the booth (e.g., with a roll-up banner), this will be tolerated by the GV-SOLAS executive board.

Please register yourself via the booking portal, your order is binding. A cancellation or reduction of services are associated with cancellation costs. A stand confirmation and invoice will be sent within 14 days of receipt of your registration. Prices are exclusive of VAT and are only the rental of the space, without stand equipment. It is possible to order technical equipment or complete stand construction systems for a separate charge. The exhibitor information will be sent 8 weeks before the conference.

#### Stand Staff / Exhibition Stand

Please note that exhibitor badges will not be sent in advance. You will get the conference material on-site at the registration desk. Registration is mandatory for every participant.

### 6.1. Industrial Exhibition

#### Disclaimer / Terms of Use

Every square meter or started part of a square meter will be charged in full.

The **maximum height of the stand** is **2.70 m**. The **maximum height under the mezzanine** in the Maritim Hall is **2.20 m**. Escape routes are 2,00 m. The maximum of the floor load is 500 kg per sq. m. Deviations must be requested separately. The organizers reserve the right, in its sole discretion to accept or reject applications for exhibitor spaces and divide the spaces among the exhibitors. Intercom Dresden GmbH has the right to make your booth space slightly larger or smaller in the light of local circumstances. **Your booth registration** must be submitted **by June 24, 2026** to find inclusion in the list of exhibitors. Intercom Dresden GmbH reserves the right to make changes at short notice. Exhibitors are responsible for all risks and any additional costs incurred by the structure or operate the business object, especially for the required insurance coverage and compliance with the statutory provisions. The total cost of the stand must be paid within 6 weeks after your registration, at least before construction. Otherwise, the stand can be resold. The transfer of stand space to third parties, whether in return for payment or free of charge, is not permitted. It is not permitted to deliver flyers or other brochures at the venue without permission from the organizer. Other events during the meeting period require the approval of the organizer. The Scientific Committee will not preferentially accept abstracts (orals or posters) because of any sponsor activities.

#### Cancellations

In case of a cancellation, we are allowed to charge a cancellation fee of 350.00 € net. For cancellations after March 24, 2026, 50% of the ordered services will be charged. There is no refund in case of cancellations after April 26, 2026.

### 6.1. Industrial Exhibition

#### Storage, Set up and Dismantling

Due to the limited storage space, it cannot be guaranteed that sufficient storage space is available. Intercom Dresden GmbH assumes no liability for damage and theft. Times for set up and dismantling as well as information on sending materials will be announced 8 weeks before the conference at the latest.

#### Special information about the Congress Center:

- regarding the fire protection regulation, it is forbidden to have a roof at the booth because of the sprinkler system and smoke detector
- you built the booth elevated, please contact us, as this must be approved by the fire protection office 6 weeks in advance
- All required materials must be "B1 – DIN 4102" = flame retardant

If you have any further questions do not hesitate to contact us:
